6th WSF World Spirit Forum When Soul appears

Arosa, January 21st 2009 – White is the colour of the soul and after 2 days of new snowfall the scenery for the closing ceremony of the **6th WSF World Spirit Forum** could not have been better.

From January 18th till 21st the **6th WSF World Spirit Forum** has had happened in Arosa, Switzerland. Under the theme of „**Discovering Soul**“ the international contributors have had the possibility to (re)discover and to experience and to reflect upon the inner power of the soul in a 4 days process. Therefore different dialogue circles, workshops and rituals provided an opportunity.

Whilst an open work in progress a sculpture, which should represent the soul of the forum arose, in a ritual there where written down the impressions of the mindful, spiritual work. Some of the written pieces have been sent into the world with balloons together with a message to Klaus Schwab, the initiator of the World Economic Forum, at the end of the days.

Conclusion of the WSF Forum 2009 has been that only on the foundation of the cultivating of ones own Soul Strength the connection between the various souls of mankind and a transformation of these vigours into concrete action can happen.

According to the international geomancer Marko Pogačnik an important impetus and guidance for this work can be provided by the “Earth Soul”.

The WSF World Spirit Forum has been founded 2003 from the Swiss entrepreneur Sesto G. Castagnoli. His desire is to develop a place complementary to the World Economic Forum in Davos where the international exchange on the evolution of mankind is not only seen against the background of the economic globalisation but rather offers the indispensable spiritual breeding ground for it.

The following contains some background information:

WSF World Spirit Forum

The annual World Congress WSF World Spirit Forum is a neutral platform for visions, projects and concrete solutions for a healthy overall system for our planet earth and the universe. Thereby, WSF is committed to consciousness, holistic and sustainability. Visionaries and pragmatists from the fields of sociology, economics, politics, science and religion are active in a growing cooperative and integral network.

Why Arosa?

A place of reflection and consciousness. Switzerland has a long tradition of humanitarian help and neutrality and offers a chance to eliminate polarization – a challenge to go in new directions. Its proximity to Davos has symbolic character. It is an ongoing aim of the WSF to enrichen the WEF World Economic Forum (and other forums) with elements of consciousness, sustainability and a sense of total responsibility.

Philosophy:

Consciousness and the activation of the creative energy embedded in each human being in going in new directions has become an essential instrument of survival. Not only for Philosophies and Religions but increasingly also for organizations, institutions and the general public. It is the deep wish of the WSF World Spirit Forum to (re)integrate spirituality into the place where it originates from: (every day) live.
